# Mapping & Italian WebDewey

Maura Quaquarelli

Italian WebDewey translation team

EDUG Workshop Naples, April 15° 2015

## The project

- Feasibility study on DDC (2010): developing a link from DDC to Nuovo soggettario
- Beginning from November 2014 started the contacts with National Library of Florence and Pansoft to realize first links

## The project

- Feasibility study on DDC (2010): developing a link from DDC to Nuovo soggettario
- Beginning from November 2014 started the contacts with National Library of Florence and Pansoft to realize first links

#### **IDEA**:

start reusing
the existing links
from Nuovo Soggettario to DDC

# Nuovo soggettario: Italian subject indexing tool

Status del record: Termine strutturato

Identificativo: 1815

Biblioteca Nazionale Centrale Firenze

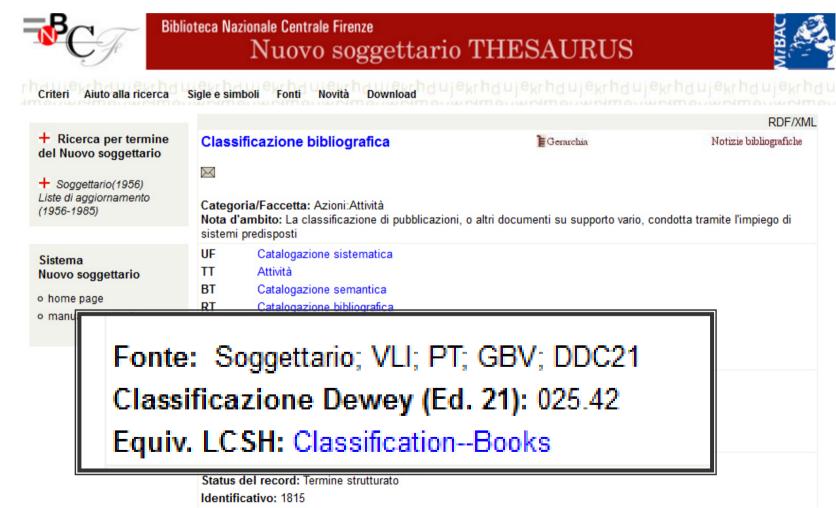

#### Nuovo soggettario THESAURUS

## Links from Nuovo soggettario to DDC

- Connection:  $1 \rightarrow 1$
- Choice of the Dewey class:
- 1) interdisciplinary number
- 2) bibliographical control to check in which class the subject is mostly classified
- 3) control of the term's hierarchy in Nuovo Soggettario
- Notation from 21° to current WebDewey edition

#### Import to WebDewey database

 Through a Marc21xml export of the Nuovo Soggettario items linked to Dewey classes it is possible to import the information on WebDewey interface

#### First results

- From WebDewey interface there will be a link between DDC classes and Nuovo soggettario
- Nuovo soggettario items will be reserchable in Web Dewey interface
- Throught Nuovo soggettario there will be indirect links from DDC records to other thesauri, Treccani and DBpedia
- It will be easier to keep updates DCC class in Nuovo soggettario

#### Next steps

#### LINKS:

- Increasing links to Nuovo soggettario
- Selecting other thesauri to link, starting from the Italian ones, such as PICO (MiBAC), ThESS (Biblioteca Mario Rostoni - LIUC)
- Creating links to other projects, such as DBpedia, VIAF for Italian people

#### **PUBLISHING:**

- Pubblic interface of Italian Dewey Classification
- Data in RDF as linked open data
